Dear Mr. Wilkinson,

A brief note from Sidney Kaufman, dated June 30, says," I have just had word that Collins Publishers have forwarded your script to Shawcross QC for a legal opinion. Baroness Budberg does not interpret that to mean an absolute acceptance subject to his requirements."

Further on the possibility of a television commercial built on the wild geese, enclosed are four prints showing month-old binkers eating from a childs hands and corn flakes from the bowl; and five slides showing the babies eating Cherios, adults eating both cereals, and one taking bread from my mouth.

Sincerely yours,

Herold Weisberg
